Prices are for one each, Freight and shipping charges extra.

Delivery time is approximately 8 to 12 weeks after placement of order. Shipping from the U. K. will be approximately \$360 per lot. This expense will be shared among all orders, thus for 6 packages the cost will be \$60 per package. Delivery within the United States will then be added to this shipping cost. Delivery will be FOB North Charleston, SC 29418, USA

All orders must be accompanied by payment of 50% of cost. Balance due upon delivery of package. Contact Bill Wolf at Spar Tech Engineering Company for information or to place orders.

The Rig Pack consists of standing rigging and halyards. Some cutting and swaging will be required to fit existing boats. Masts will be longer than required and will need to be cut to fit existing boats.
